

Erkam Alper Özkan

Full Stack Developer · Mobile (React Native) · Web (Vue/React)

Full Stack and Mobile Developer focused on building real-world products with clean UI, scalable architecture, and reliable integrations. Strong in React Native / Expo and modern web stacks (Vue/Nuxt, React/Next). Comfortable with Node.js APIs and product-oriented development.

WORK EXPERIENCE

Hizmetino

Türkiye · 2025 — Present

Co-Founder & Full Stack Developer

End-to-end development of a mobile-first service marketplace (Armut-like), including mobile app, web presence, and backend services.

- Built core product flows: service requests, provider offers, profiles, ratings & reviews.
- Implemented payment-ready architecture (credit card / payment provider integration plan).
- Designed scalable data/API structure and integrated third-party services where needed.

REST APIs

Norasis

Freelance · 2024 — 2025

Co-Founder & Full Stack Developer

Delivered web features and integrations with a focus on clean UI, responsiveness, and maintainability.

- Developed and maintained web pages/components with performance and accessibility in mind.
- Worked on API integration and deployment-ready workflows.

PERSONAL TRAITS

- Fast learner** — quickly adapts to new tools, frameworks, and product requirements.
- Product-oriented** — prioritizes user experience and real-world constraints.
- Problem solver** — enjoys debugging, performance tuning, and simplifying complex flows.
- Self-motivated** — comfortable owning features end-to-end as a freelancer and co-founder.
